4. Draft Minute of Meeting of 5 September 2024 For Approval

21 November 2024
AUDIT COMMITTEE

Falkirk Campus, Steeple Suite, 4.30pm

Present: Lorna Dougall (Chaired)
Alistair McKean
Liam McCabe

In Attendance: Alison Stewart, Vice Principal Finance and Corporate Affairs (VPFACA)
Colin McMurray, Vice Principal Business and Innovation (VPBI)
Stephen Pringle, Wbg Services
Stephen Jarvie, Corporate Governance and Planning Officer (CGPO)
Graeme Robertson, Head of Information Technology (HIT) for item A/24/005 only

A/24/001 Apologies, Declaration of Interests and Changes to Members' Register of Interest

Rhona Geisler (Chair)
Trudi Craggs

A/24/002 Draft Minutes and Matters Arising of meeting of 16 May 2024

Members considered the minute of the meeting of 16 May 2024

a) Members approved the minute of the meeting of 16 May 2024

A/24/003 Review of Action Tracker

Members reviewed the content of the action tracker.

Members discussed the need for the External Auditors to be at the meeting in person and agreed that they should be in attendance at the November meeting.

a) Members noted the content of the action tracker

A/24/004 Review of Committee Remit

The CGPO commented that the Principal had noticed the remit contains reference to the Finance Committee and that this needed to be updated to state the Finance, Resource & Infrastructure Committee.

a) Members approved the Committee remit subject to the changes outlined above

A/24/005 Policy Updates/Approvals

5.1 Anti Bribery and Anti-Corruption

The VPFACA presented the policy, noting the changes incorporated since last approval.

4. Draft Minute of Meeting of 5 September 2024 For Approval

21 November 2024
AUDIT COMMITTEE

Members commented that they felt the updated policy was strong on outlining staff responsibilities and queried how this would be disseminated to staff.

The VPFACA confirmed that the policy would be publicised on the College SharePoint, via the e-focus newsletter and that, while applying to all staff, specific staff would also be notified as well owing to their roles.

a) Members approved the policy

5.2 IT Security

The HIT presented an updated IT Security policy. He outlined the main changes to the Policy to maintain its relevancy.

He noted one change being the requirement for staff not to utilise non-IT provided power sources for College devices as there is a risk of fire. Members welcomed the addition and noted that the fire risk should be more clearly stated in the policy as the reason for the change.

a) Members approved the policy

A/24/006

Audit Needs Assessment

Stephen Pringle (SP) presented the audit needs assessment that had been developed in conjunction with College Management.

He outlined each of the proposed audits and noted that high level scopes for each as well as the intended timetable for review work and reporting to the Committee was contained in the document.

Members queried the increased number of audit days assigned to this academic year.

SP explained that this was a result of the College asking to move the Fraud Awareness review from 2023/24 into 2024/25.

The VPFACA commented that, owing to the approval from the Committee of the updated Fraud Policy earlier in the year, it was considered prudent to delay the audit until the new policy was embedded.

a) Members approved the Audit Needs Assessment for 2024/25

A/24/008 Audit Committee Self-Assessment

The Chair presented the Committee self-assessment document for members review and approval.

She noted that this was an important check and that, while she was content with the content, it was important that all members agreed.

The VPFACA informed members that the document had been reviewed and that the Committee Chair had been involved in this process.

Members noted that there were a couple of areas where the College was not compliant with the Code of Good Governance. The VPFACA explained that this related to the independence of the Board Secretary function and that this was mitigated by having a Deputy Board Secretary, the CPGO, in post and also via the annual review and approval of this arrangement by the Board of Management.

a) Members approved the self-assessment document

A/24/009 National Fraud Initiative Checklist

The VPFACA presented an update on the National Fraud Initiative (NFI) and how this is run within the College.

She noted that the College had been participating in the NFI for a number of years now and that a review of payroll and creditors was conducted every two years.

Members noted that participation in the NFI involved the transfer of a lot of staff data and queried if the College was comfortable with how this is managed.

The VPFACA confirmed that the College was satisfied.

a) Members noted the content of the report

A/24/0010 Internal Audit Annual Report

SP presented the 2023/24 annual report on the internal audit function. He confirmed that the overall rating was a positive one and that, overall, the College had fewer recommendations from audits than the sector average. He noted the one report on

AUDIT COMMITTEE

Strategic Planning that had received a low rating and that actions were being taken to address this.

a) Members noted the content of the annual report

A/24/011 Presentation of Internal Audit Reports

SP presented two reports to the Committee.

HR Payroll System

He highlighted that this was a positive report with an overall rating of strong and no recommendations made. He also highlighted that 13 areas of best practice had been identified during the audit.

Follow Up Review

He presented the annual follow up review report, noting that 10 recommendations had been reviewed and that 3 low level recommendations were partially complete.

The CGPO outlined the reasons for the partial completion, noting that this was a timing issue linked to external bodies.

SP commented that the number of recommendation remaining to be completed was low for a College of the size of FVC.

a) Members noted the content of the reports

A/24/012 Progress Report on Audit Recommendations

The CGPO presented the standing report on progress against audit recommendations. He confirmed that the three recommendations discussed under the previous agenda point remained live and highlighted one recommendation where the College was requesting to extend the completion date by one month to reflect the need to engage the Board of Management in the strategic planning process.

a) Members noted the content of the report

A/24/013 Risk Management

The VPFACA presented the new risk management report. She confirmed that, as discussed at the Committee meeting in May, the cover paper contained a summary table of strategic risk and commentary on any changes to risk. She also confirmed that fuller detail on each risk was hosted on the Admincontrol system for members who wanted to check on further detail.

Members commented on the 'treatment' assigned to each risk, noting that as presented the options for treatment appeared quite passive and did not reflect the work ongoing to mitigate risks.

4. Draft Minute of Meeting of 5 September 2024 For Approval

21 November 2024
AUDIT COMMITTEE

It was agreed that the College would review the treatment options to more accurately reflect the ongoing risk mitigation.

Members commented that it may be a good idea for the Board or Committee to have a session to agree on the appropriate treatment categories for risk.

The VPFACA informed members that, since the publication of the papers, risk 5 regarding national bargaining had changed as EIS-FELA had accepted the four year pay deal.

a) Members noted the content of the report

A/24/014

Review of Fuel Change Lessons Learned Action Plan

[Redacted content]

A/24/015

Review of Risk

Risks were noted in the cover papers.

The matters raised in this report came to our attention during the course of our audit and are not necessarily a comprehensive statement of all weaknesses that exist or all improvements that might be made.

This report has been prepared solely for Forth Valley College individual use and should not be quoted in whole or in part without prior written consent. No responsibility to any third party is accepted as the report has not been prepared, and is not intended, for any third party.

We emphasise that the responsibility for a sound system of internal control rests with management and work performed by internal audit should not be relied upon to identify all system weaknesses that may exist. Neither should internal audit be relied upon to identify all circumstances of fraud or irregularity should there be any although our audit procedures are designed so that any material irregularity has a reasonable probability of discovery. Every sound system of control may not be proof against collusive fraud.

Internal audit procedures are designed to focus on areas that are considered to be of greatest risk and significance.

1 Executive Summary

Introduction

A review of the College's student data returns has been carried out in accordance with the "Credit Guidance for Colleges AY 2023-24" issued by the Scottish Funding Council (SFC) on 12 June 2023 and the "FES Return and Audit Guidance 2023-24" issued 27 August 2024.

The audit certificate, along with the College certificate, was submitted to the Scottish Funding Council on 4 October 2024. This report was submitted to the SFC on 4 October 2024.

Scope of Review

The audit procedures have been designed to ensure the College has adhered to the "Credit Guidance for Colleges AY 2023/24". As planned, the audit took 5 days to complete comprising fieldwork carried out by the Internal Auditor and a review by both the Director and the Partner. All staff involved in the audit had relevant experience.

Our audit sample was selected using analytical techniques and covered a minimum of 5% of the total Credits count with a minimum of 10 courses being tested. Additional sample checks were also carried out on Credits relating to Open/Distance Learning, Infill, Credits spanning academic years, non-accredited placements, Fee Waiver, and non-fundable courses/students.

The audit process of reviewing the returns being submitted was carried out using the following processes:

- | A review of the systems operated by the College for the return;
- | Appropriate walk through and compliance checks for the relevant areas;
- | Analytical review techniques to ensure testing was undertaken in the most appropriate areas;
- | Reviewing the risk areas, issues raised in 2022/23 and the specific issues for 2023/24 highlighted in the audit guidance;
- | Sample checking the data included in the return; and
- | Specifically tailored Credits audit programmes.

1 Executive Summary

Conclusion

Overall conclusion

The audit certificate in respect of the 2023/24 return included within Appendix A, is unqualified and is in the format set out in the SFC audit guidance. The audit certificate was submitted to SFC on 4 October 2024.

Overall Conclusion:

The College has reasonable procedures and controls over the collection of data for the credits return and assurance can be taken that the credits count for the College is not materially mis-stated. The systems used by the College are satisfactory. The recommendations arising as a result of our review are included within Appendix C.

We have raised 2 recommendations for improvement for 2023/24.

The College's credit target for the academic year 2023/24, agreed between the SFC and the College, was 79,107. The total credits claimed for the year was 77,530.

	Target	Claimed	Variance
Total Credits	79,107	77,530	1,577

As can be seen from the above table, the College has not met its credits target for 2023/24.

2 Benchmarking

We include for your reference comparative benchmarking data of the number and ranking of recommendations made for audits of a similar nature in the year ending 31 July 2023.

Credits Audit 2023/24

Benchmarking	High	Medium	Low	Total
Average number of recommendations in similar audits	-	-	-	-
Number of recommendations at Forth Valley College	-	-	2	2

From the table above it can be seen that the College has a higher number of recommendations compared to those colleges it has been benchmarked against.

3 Risk Areas & Audit Tests

Non-Fundable Activity

We reviewed, in full, with the College to confirm that all activity which has been classified as fundable has been correctly classified. We reviewed non-fundable activity to ensure that this is complete. ***From our review, we found that all courses were accurately treated as either fundable or non-fundable by the College.***

Spanning Programmes

We reviewed in full all courses which spanned the academic year to ensure the College had deferred until next year all credits for courses spanning 2022/23 to 2023/24. ***Our testing concluded that the College did not have any spanning programmes and therefore credits were claimed appropriately.***

Non-Fundable and Fundable Students

We reviewed in full all students classified as non-fundable by the College to confirm accuracy and completeness. Testing was performed to ensure that credits values have only been allocated to fundable students. ***Our testing indicated that the College had underclaimed for 15 students resulting in a total underclaim of 22.1 credits. Please refer to Appendix B: Summary of Errors and Appendix C: Current Year Recommendations for further information.***

Full-Time and Other than Full-Time Classification

A sample of 13 courses, covering 5.16% of total credits, were randomly selected from the four modes of attendance (11 from full-time and 2 classified as other than full-time). Testing was undertaken to ensure these were correctly classified. ***We can conclude that all courses tested were correctly classified.***

Higher Education and Further Education Classification

The sample selected including a total of 4 HE courses and 9 FE courses. ***Our audit work indicated that courses had been correctly classified.***

3 Risk Areas & Audit Tests

Infill Students

The College have a separate class code beginning with an 'I' to illustrate an infill course. The word 'infill' also appears in the title of the course.

We tested a sample of 10 students treated as infilling into courses to ensure that they had been correctly classified, and that Credits had been calculated correctly. This represented 7.1% of total students infilling into courses. ***No issues found from our testing.***

We also reviewed in full the students the College were classifying as infill students to confirm that credits were only being claimed for the subjects the students had undertaken. ***No issues were found from our testing.***

Attendance Criteria

For our sample of 13 courses tested (5.16% of total credits claimed), we tested to ensure that the College had correctly calculated and recorded the required date. ***We can confirm that the College has calculated course required dates in line with the guidance.***

We sampled a total of 20 students from the courses sampled to ensure that the College had obtained a valid enrolment form. ***We can confirm that for each student in our sample an appropriate enrolment record was available.***

We traced a total of 20 students to attendance registers to ensure that they had attended beyond the required date, where credits had been claimed for the student. ***We can confirm that for each student in our sample was appropriately traced to the attendance register.***

We also performed testing on a sample of 14 withdrawals (6.4% of total withdrawals) to ensure that these had been processed in accordance with SFC guidance. This included a total of 9 students who withdrew prior to the required date and 5 students who

3 Risk Areas & Audit Tests

withdrew after the required date. ***No issues were found where we were able to confirm that credits were claimed appropriately for withdrawn students.***

Credits Count

For our sample of 13 courses, we recalculated the individual credits for each of these courses to confirm the correct value had been allocated by the College. We reviewed the attendance of the students on these courses to ensure that credits were only attributed to those students who had attended beyond the required date and who were fundable students. ***No issues found where we were able to confirm that credits for the courses sampled were being claimed appropriately.***

Maximum Credits Claim

All students with more than one enrolment were identified and investigated to ensure credits were not overclaimed. ***No issues found where we were able to confirm that the College are not exceeding the maximum credits permissible to be claimed. It should be noted that further leniency has been offered by the funding council surrounding this area.***

Fee Waiver

A random sample of 15 fee waived students were selected. We checked to ensure that their eligibility for a fee waiver had been assessed appropriately by the College. This was done by tracing to an enrolment form and where appropriate a fee waiver form and relevant eligibility documentation. We also assessed whether the students had been allocated to the most appropriate fee waiver category. ***We found that there were no issues with fee waiver students.***

Distance Learning

A random sample of 10 students from distance learning courses were selected and traced to an enrolment form to ensure the students had a Scottish post code and that the College were correctly claiming credits. This represented 33.3% of all distance learning students. We also traced to evidence of achievement/progression. ***We can confirm that there were no issues noted from our testing.***

3 Risk Areas & Audit Tests

Non-accredited Placements

A random sample of 10 students with non-accredited placements as part of their study programme were selected and traced to the students' enrolment form and evidence of attendance. We also checked the calculation of the credits for the non-accredited placements to ensure the College were claiming these in line with the SFC requirements. This represented 2.55% of all students with non-accredited placements. ***We can confirm that there were no issues noted from our testing.***

Collaborative Provision

We confirmed with the College that no Collaborative Provision was undertaken in 2023/24.

A. Audit Certificate

Auditors' Report to the members of the Board of Management of Forth Valley College

We have audited the FES return which has been prepared by Forth Valley College under the SFC's Credits Guidance for colleges issued 12 June 2023 and which has been confirmed as being free from material misstatement by the College's Principal in his Certificate dated 1 October 2024.

We conducted our audit in accordance with the 2023-24 audit guidance for colleges. The audit included an examination of the procedures and controls relevant to the collection and recording of student data. We evaluated the adequacy of these controls in ensuring the accuracy of data. It also included examination of evidence relevant to the figures recorded in the student data returns. We obtained sufficient evidence to give us reasonable assurance that the returns are free from material misstatement.

In our opinion:

- | The student data returns have been compiled in accordance with all relevant guidance;
- | Adequate procedures are in place to ensure the accurate collection and recording of the data; and
- | Subject to the exceptions noted in this report, we can provide reasonable assurance that the FES return is free from material misstatement.

B. Summary of Errors

The table below highlights the value of credit errors that the auditor found during the course of the audit and notes that these errors were subsequently corrected in the SFC FES return.

Summary of Error	Number of Raw Credits	Adjusted/Unadjusted in FES Return
Credits underclaimed for 14 fundable students.	7.1	Adjusted
Credits underclaimed for a student originally meant to get funded by an HEI however changed and as such credits should have been claimed.	15	Adjusted
Total	(22.1)	

C. Current Year Recommendations

Course Classification and Non Fundable Courses			
Ref.	Finding and Risk	Grade	Recommendation
1.	<p>The College's FES submission process requires that all courses be appropriately categorised and that credits have been claimed appropriately for fundable courses.</p> <p>During our review, it was found that 1 course with no credits attached had a student that was initially due to be funded by HEI, however a late change meant they were eligible to be funded, and credits should have been claimed. The College has since claimed 15 credits for the student in a revised FES.</p> <p>Further testing also identified 1 course which was incorrectly classified on the FES as full time despite being noted as mode of attendance 07 and the average credit claim per student was 14. This has since updated in a revised FES. It should be noted that the classification identified does not have a funding impact.</p> <p>There is a risk that the College are not claiming credits for fundable courses and a further risk should courses be incorrectly classified its funding allocation may be adversely impacted.</p>	Low	We recommend the College ensures courses are correctly classified on the FES and ensures that credits are claimed for fundable students in line with the SFC guidance.

C. Current Year Recommendations

Management response	Responsibility and implementation date
Prior to any future FES returns an additional check on HEI funded students will be undertaken to ensure that HEI funding is still the relevant recorded funding route.	<i>Responsible Officer:</i> Data Manager <i>Implementation Date:</i> 31/7/25

C. Current Year Recommendations

Fundable Students			
Ref.	Finding and Risk	Grade	Recommendation
2.	<p>The College's FES submission process requires that all students' records are accurate and complete before submission to ensure proper allocation of SFC credits. Late changes or corrections should be documented, justified, and verified before being included in revised submissions.</p> <p>During our review, it was found that 14 students that qualified for funding on the original FES provided had 0 credits claimed. When queried with the College, it was identified that credits should have been claimed for the students identified. The College has since claimed 7.1 credits for the student in a revised FES.</p> <p>There is a risk that the College are underclaiming their credits.</p>	Low	We recommend that care is taken when inputting data into the FES so that credits are appropriately claimed, and the College receives its full entitlement.
Management response			Responsibility and implementation date
<p>Originally these courses had been established as FWDF funded courses, run through our Apprenticeship, Skills, and Commercial Department, however with FWDF funding being discontinued, these short courses had been run as Credit funded courses, however the source of funding had not been amended, and therefore 7.1 Credits which could be claimed had been missed. An additional check will be added to future FES returns to ensure that courses are not coded as FWDF.</p>			<p><i>Responsible Officer:</i> Data Manager</p> <p><i>Implementation Date:</i> 31/7/25</p>

D. Grading Structure

For each recommendation, we assign a grading either as High, Medium, or Low priority depending on the degree of risk assessed as outlined below:

Grading	Classification
High	Major weakness that we consider needs to be brought to the attention of the Audit Committee and addressed by Senior Management of the College as a matter of urgency.
Medium	Significant issue or weakness which should be addressed by the College as soon as possible.
Low	Minor issue or weakness reported where Management may wish to consider our recommendation.

Conclusion

Overall Conclusion:

We have examined the records of Forth Valley College and have obtained such explanations and carried out such tests as we considered necessary. On the basis of our examination and of the explanations given to us, we report that the information set out in these forms is in agreement with the underlying records. We also report that, in our opinion, the College used these funds in accordance with the guidance issued by the Scottish Funding Council (SFC) and Student Award Agency for Scotland (SAAS). We are satisfied that the systems and controls of the administration and disbursement of these funds are adequate.

Summary of Income & Expenditure

The table below provides a summary of the income and expenditure for each of the funds and provides details of the fund position at the end of the year. Further detail on the expenditure incurred by fund can be found at Appendix A.

B. Current Year Recommendations

Childcare Evidence			
Ref.	Finding and Risk	Grade	Recommendation
1.	<p>Colleges should ensure their systems maintain accurate and up-to-date records of student applications, including all supporting evidence for those receiving childcare funding.</p> <p>During our review, we identified that for one student receiving childcare support, no evidence of the child was initially found in the system. However, after further investigation, the child's birth certificate was located.</p> <p>Without accurate and complete records, there is a risk that funds could be misallocated, potentially leading to financial loss for the College, as well as non-compliance with funding requirements.</p>	Low	<p>We recommend that periodic spot checks be conducted on students applying for childcare funding to ensure that eligibility is verified and that all supporting documentation is properly recorded and maintained.</p>
Management response			Responsibility and implementation date
<p>Checks are currently carried out by the Senior Student Funding Officer, and we accept that on this one occasion the missing birth certificate was not identified. No system is fool proof against human error, however to provide further comfort, we will introduce a number of spot checks by the Systems & Management Accountant.</p>			<p><i>Responsible Officer:</i> Senga McKerr Director of Finance</p> <p><i>Implementation Date:</i> Immediately</p>

C. Grading Structure

For each recommendation we make we assign a grading either as High, Medium or Low priority depending upon the degree of risk assessed as outlined below:

Grading	Risk	Classification
High	High Risk	Major weakness that we consider needs to be brought to the attention of the the Audit Committee and addressed by Senior Management of the College as a matter of urgency
Medium	Medium Risk	Significant issue or weakness which should be addressed by the College as soon as possible
Low	Low Risk	Minor issue or weakness reported where management may wish to consider our recommendation

AUDITOR'S REPORT

We have examined the books and records of the above institution and have obtained such explanations and carried out such tests as we consider fit respectively. On the basis of our examination and of the explanations given to us we report that (subject to the reservations set out in our letter dated [REDACTED] which is attached) the information set out above is in agreement with the underlying records and in our opinion is in accordance with the relative statutory requirements. We are satisfied that the systems and controls of the administration and disbursement of these funds are adequate, and that an interest bearing account or accounts was in operation for the funds which are separate from the institution's account.

Disclaimer

The matters raised in this report came to our attention during the course of our audit and are not necessarily a comprehensive statement of all weaknesses that exist or all improvements that might be made.

This report has been prepared solely for Forth Valley College individual use and should not be quoted in whole or in part without prior written consent. No responsibility to any third party is accepted as the report has not been prepared, and is not intended, for any third party.

We emphasise that the responsibility for a sound system of internal control rests with management and work performed by internal audit should not be relied upon to identify all system weaknesses that may exist. Neither should internal audit be relied upon to identify all circumstances of fraud or irregularity should there be any although our audit procedures are designed so that any material irregularity has a reasonable probability of discovery. Even sound systems of control may not be proof against collusive fraud. Internal audit procedures are designed to focus on areas that are considered to be of greatest risk and significance.

1. Executive Summary

Introduction

This report has been prepared following the conclusion of our audit of the Educational Maintenance Allowance for the year ended 31 July 2024.

The audit certificate was submitted to the Scottish Funding Council (SFC) on 4 October 2024.

Summary of Recommendations

Current Year Recommendations	High	Medium	Low	Total
EMA Audit 2023/24	-	-	-	-

Prior Year Recommendations	High	Medium	Low	Total
There were no recommendations made on the EMA Audit 2022/23.				

1. Executive Summary

Conclusion

Overall Conclusion:

We have examined the books and records of Forth Valley College, including evidence of checks of 5% of applications and payments, with a sample size appropriate to the total number of applications, and have obtained such explanations and carried out such tests as we considered necessary.

On the basis of our examination and of the explanations given to us, we report that the information set out in these forms is in agreement with the underlying records.

We also report that, in our opinion, the College used these funds in accordance with the SFC's conditions and the principles of the Education Maintenance Allowance (EMA) programme.

We are satisfied that the systems and controls of the administration and disbursement of these funds are adequate.

2. Benchmarking

We include for your reference comparative benchmarking data of the number and ranking of recommendations made for audits of a similar nature in the year ending 31 July 2023.

Benchmarking	High	Medium	Low	Total
Average no. recommendations in similar audits	-	-	-	-
Recommendations at Forth Valley College	-	-	-	-

As can be seen from the above table, the College has a similar number of recommendations in comparison to the colleges it has been benchmarked against.

3. Audit Arrangements

B. Grading Structure

For each recommendation we make we assign a grading either as High, Medium or Low priority depending upon the degree of risk assessed as outlined below:

Grading	Risk	Classification
High	High Risk	Major weakness that we consider needs to be brought to the attention of the the Audit Committee and addressed by Senior Management of the College as a matter of urgency
Medium	Medium Risk	Significant issue or weakness which should be addressed by the College as soon as possible
Low	Low Risk	Minor issue or weakness reported where management may wish to consider our recommendation

9. Progress Report on Audit Recommendations For Discussion

21 November 2024
AUDIT COMMITTEE

1. Purpose

To update members on progress with the implementation of recommendations contained within internal and external audit reports.

2. Recommendation

That members note the content of the report and associated appendix.

3. Background

The College monitors progress against internal and external audit recommendations and reports on progress to each meeting of the Audit Committee. This report provides assurance to the Committee that the College is appropriately managing all internal and external audit recommendations.

4. Summary of Changes

The two audit reports presented to the September meeting of the Audit Committee did not contain any additional recommendations. The attached annex contains an update on progress against recommendations.

The College is finally getting some engagement regarding recommendations 1 and 2 however new completion dates have not been added until the College is confident they will be deliverable by the external vendor. These recommendations are included in the table below as "Live Recommendation passed implementation date".

Recommendation 3 regarding medium term financial plans is still unachievable giving the overall financial position of the sector and information available to support such planning. Unlike recommendations 1 and 2 which were delayed owing to capacity issues at an external supplier, there is no indication of when the College would be in a position to achieve this recommendation. As such the College is proposing to remove the recommendation from the tracker given the current level of engagement with the Board of Management on Finances and the ongoing preparation of Financial Forecast Returns (FFRs) covering a 3 year period.

2 recommendation has reached a stage where the college considers them to be completed.

We are seeking to change the completion date for recommendations 4 and 5 to reflect the current timeline for the strategic planning process.

The table overleaf represents a summary of the current position of the recommendations as at 8 November 2024.

8. Risk and Impact

Please complete the risk table below. Risk is scored against Likelihood x Impact, with each category scored from Very Low through to Very High. Risks should be robustly scored and, if the combined score (Likelihood x Impact) is higher than the Board Risk appetite for the risk category identified, additional justification must be provided on why this risk is necessary.

If the paper is an approval, please reflect on whether the approval will have any direct or indirect impact for any other areas of operational activity internally or externally within the College – No

Total Risk Score – 4

The College has a Strategic Risk appetite for categories of risk as defined by the Board of Management. Decisions being taken at LMT/SMT/Board level must have cognisance of this. Please indicate the single most relevant risk category in the table below.

Plug-and-play device connections (e.g., USBs). Process creation. File creation. PowerShell providers loaded. Script block logging. 	The College is currently on-boarding with Jisc to introduce a Security Information Events Management (SIEM) system, starting with logging at server level. It's planned to extend logging to key workstations once all parties are comfortable with how they system functions. This recommendation reflects where we are with our implementation.	3	<p>November 24 - Jisc have re-engaged with on-boarding to their new offering, and revised pre-boarding paperwork and tasks have been completed by the College.</p> <p>August 24 - Still engaging with Jisc, however no confirmed date for on-boarding.</p> <p>April 24 - No change</p> <p>November 23 - The College has continued to engage with preparations for entering a SIEM, and updated logs have been provided to Jisc, however there is no confirmed date for on boarding.</p> <p>August 23 - No change at this time</p> <p>May 23 - JISC have had to radically change it's SIEM offering, which put a stop to on boarding. 3	Budgetary Control	May-23	Alison Stewart	Senga McKerr	The College should develop realistic medium-term financial plans and forecasts to supplement the annual FFR and help to identify and mitigate emerging risks to its medium to long term financial sustainability.	The ability to develop sensible medium term plans depends on receiving 3-year funding allocations. SFC has acknowledged that Budget plus one further year is sufficient, and this is expected to be the FFR requirement in June. We will discuss with the Finance Committee members the level of forward planning they would like to see and we will look to develop these plans when we have additional clarity around key assumptions.	3	<p>November 24 - Due to the ongoing budgetary issues it is not possible to prepare medium term financial plans.</p> <p>August 24 - No change</p> <p>April 24 - with the late announcement of the indicative funding levels this year, it has not yet been possible to develop these plans and discuss them with the Board Committee. 4	Strategic Planning	Feb-24	Kenny MacInne	Kenny MacInne	Progress against the Strategic Plan - We recommend the College uses SMART objectives to enable monitoring, and that the progress against these objectives is regularly reported to the Board of Management.	The College acknowledges that the current Strategic and Operational plans not having measurable objectives is a weakness. While there is significant reporting at Board and Committee levels on progress against key metrics, we acknowledge that this information is not easily attributable to the Strategic Plan objectives. The Principal and Senior Management Team are currently planning a new Strategic Plan and corresponding Operational objectives, involving significant internal and external shareholder consultation, and commit to developing plan objectives that are, wherever possible, quantitative. A Strategic Plan dashboard showing progress of Board approved metrics will be presented as a standing item at all Board meetings from academic year 24/25. Strategic Plan dashboard showing progress of Board approved metrics will be discussed with the new Chair to review required metrics.</p>	Aug-24	Dec-24		
5	Strategic Planning	Feb-24	Kenny MacInne	Kenny MacInne	Strategic Planning process - We recommend that the College documents the strategic planning process including: key steps, stakeholder engagement and other key areas. Documentation gathered in the planning process should be retained.	The College will ensure the planning process, stakeholder consultation and Board of Management involvement is codified in a comprehensive procedure and that appropriate records are maintained. 10. Risk Management For Discussion

21 November 2024
AUDIT COMMITTEE

1. Purpose

To present the current strategic risk register to members.

2. Recommendation

That members consider the strategic risk register and comment on the content.

3. Background

The strategic risk register is presented at each meeting of the Audit Committee and annually to the Board so that members may review and comment on those risks deemed to be strategically important to the College.

The table below is a summary of the risk register. Individual risk documents are stored in the Audit Committee area of Admincontrol, under Strategic Risks. Members wishing to gather more information on any particular risk will be review this material at any time. This report will focus on new risks or where changes have occurred.

4. Notable Changes to Strategic Risks

At the September 2024 meeting of the Audit Committee, the risk treatment assigned to each of the risks was reported in error. This has been corrected in the table above. This will likely change in the future once the Committee reviews the risk treatment options.

The Risk Appetite score column has also been updated to show using RAG when the current score for a risk is higher than the appetite.

Risk 3 – High quality learning experience – the causes and impacts of the risk have been updated and this is shown in the text

Risk 4 - OSCR – The score for this risk has been reduced as it has failed to mature thus far.

Risk 5 – National Bargaining/Strike Action – the score has been reduced to reflect the acceptance of the pay deals by Unions.

5. Resource Implications (Financial, People, Estates and Communications)

The register itself does not require significant resource to manage however mitigating actions may require additional resource on a case by case basis.

6. Equalities

Assessment in Place? –No

The Risk Registers do not require equalities impact assessment. Individual risks may result in Equalities assessments being completed for new/revised College policies and procedures.

7. Communities and Partners

Not applicable

8. Risk and Impact

Please complete the risk table below. Risk is scored against Likelihood x Impact, with each category scored from Very Low through to Very High. Risks should be robustly scored and, if the combined score (Likelihood x Impact) is higher than the Board Risk appetite for the risk category identified, additional justification must be provided on why this risk is necessary.

	Likelihood	Impact
Very High (5)		
High (4)		
Medium (3)		
Low (2)	X	X
Very Low (1)		

Total Risk Score – 4

The College has a Strategic Risk appetite for categories of risk as defined by the Board of Management. Decisions being taken at LMT/SMT/Board level must have cognisance of this. Please indicate the single most relevant risk category in the table below.

1. Purpose

To provide an overview of Complaints, Data Protection and Freedom of Information activity for academic year 2023/24.

2. Recommendation

That members review and note the content of this report.

3. Background

The College has, among a wide range of legal responsibilities, specific responsibilities in relation to –

- Complaints
- Data Protection; and
- Freedom of Information

In order to provide assurance to the Board that the College is discharging these duties correctly, this report is prepared annually to the Audit Committee for member's consideration

4. Key Considerations

4.1 Complaints

The information presented in this section of the report and anonymised in Appendix 1, covers the complaints received and responded to by the Executive Office and the Principal.

There are also lower level complaints which are dealt with routinely by operational staff and, in line with the College's complaints handling process as set out by the Scottish Public Sector Ombudsman (SPSO) in their Model Complaints Handling process which the College adopted to deal with complaints as close to the complainant as possible, complaints received by the executive office which can be addressed at a departmental level are referred onward as appropriate.

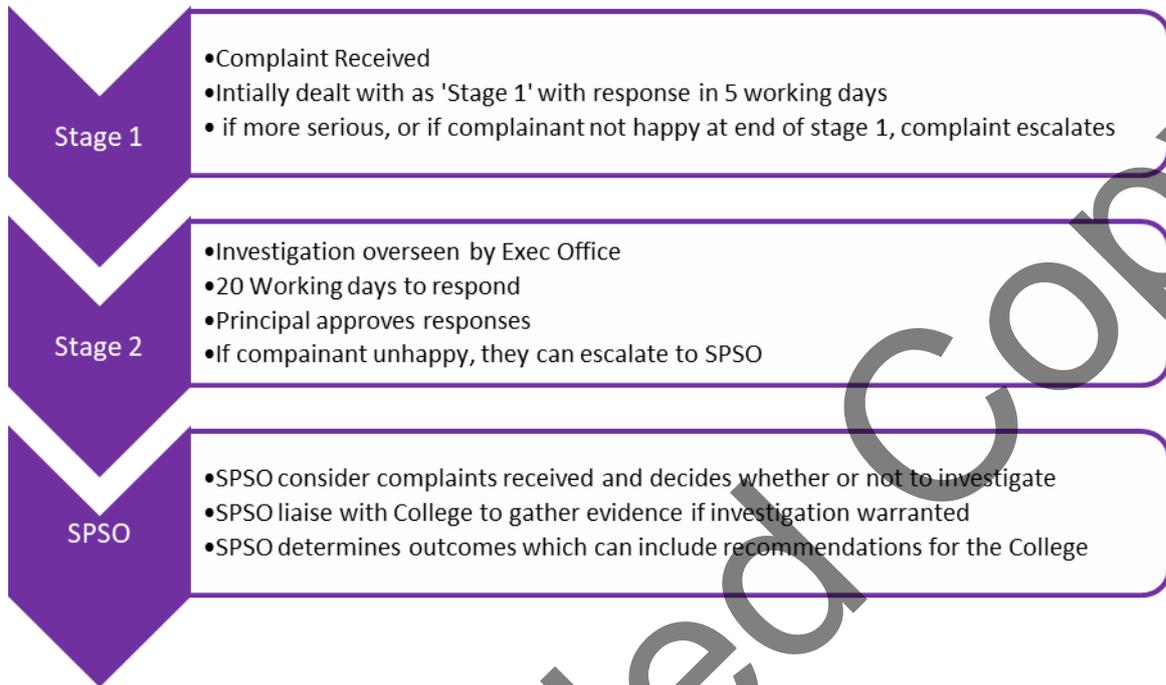

For fuller information on the College complaints handling process, please see - <https://www.forthvalley.ac.uk/about-us/governance/complaints/>

In brief, the complaints handling process is outlined on the next page.

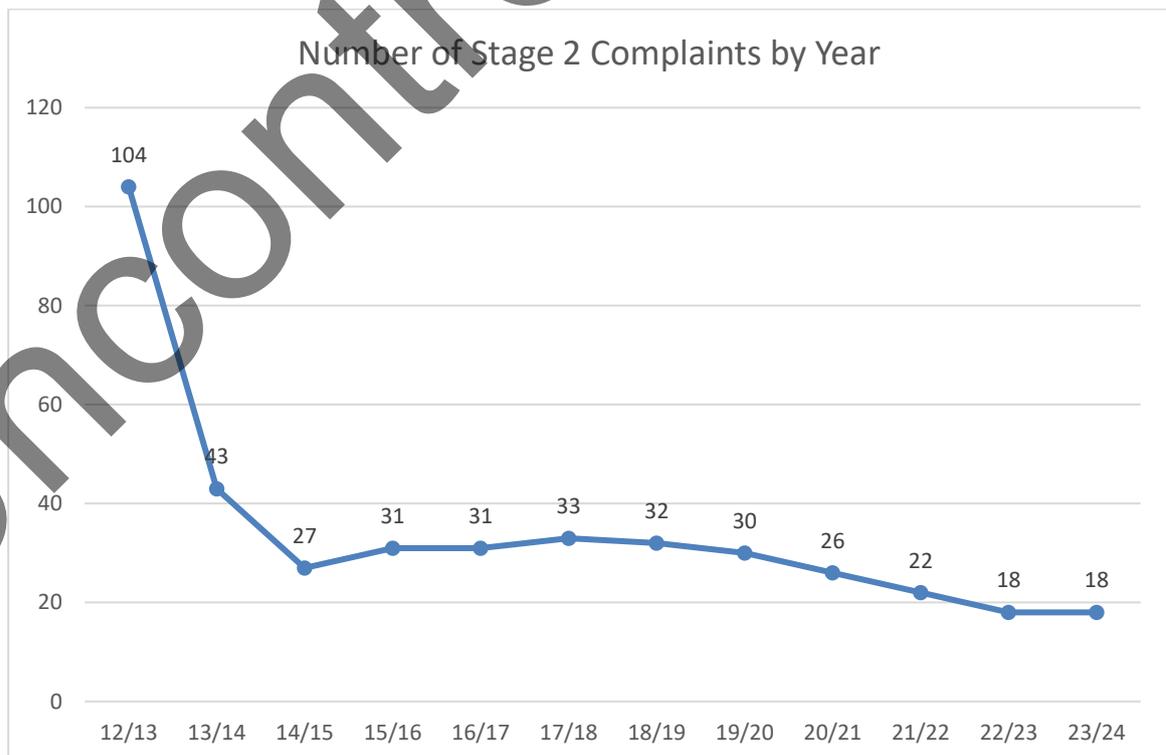

11. Compliance Report For Discussion

21 November 2024
AUDIT COMMITTEE

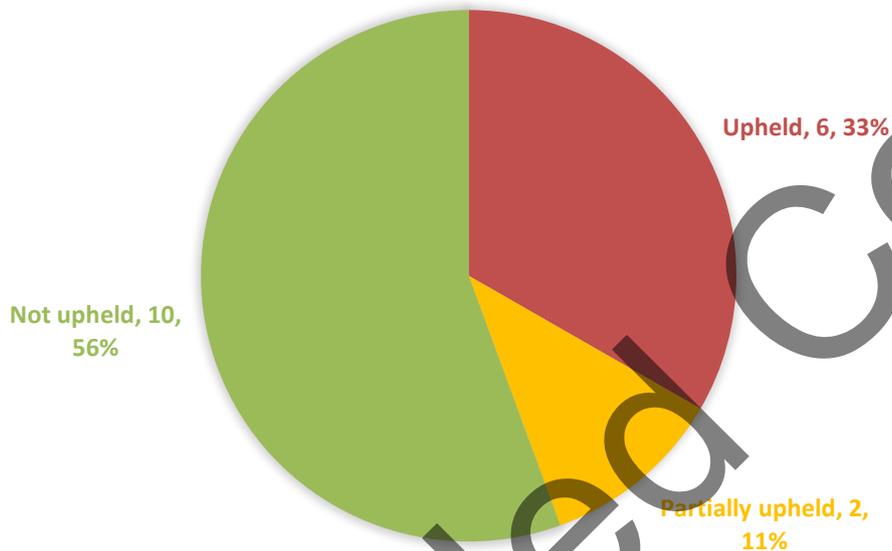

4.1.1 Complaints received in academic year 2023/24

The number of complaints at Executive Office level has remained largely stable compared to previous years.

23/24 COMPLAINTS BY OUTCOME

What the data outlined in the preceding charts do not show however, is the increasing range of complexity of complaints.

There has been a marked increase of complaints against members of staff (11 of 18 complaints or 61%) and of these 11 complaints, 3 were found to have some merit and all 3 relating to comments made by staff in class; and 1 was partially upheld regarding staff lateness to class.

The remaining 7 complaints against staff appear to be mainly retaliatory in nature e.g. students lodging complaints against staff who had made disciplinary decisions or students blaming staff for non-achievement.

As members may appreciate, these investigations take up a lot of resource, particularly at management/senior management level who lead the investigations.

While there have been complaints regarding learning and teaching delivery in the past, these were isolated incidents. The new trend outlined by the 7 complaints not upheld referred to above does not have an obvious source.

It is important to note that the College is cognisant of its need to support staff in these circumstances and always seeks to reach an outcome as quickly as possible in these matters.

At a sector level, comparing the total number of complaints received against data published by other College's demonstrates the College is receiving a fairly typical number of complaints.

4.2 Data Protection

4.2.1 Data Breaches

The College has a process in place for the recording, and if necessary, investigation of potential data breaches.

The team consists of the Vice Principal Infrastructure and Communications, the Corporate Governance and Planning Officer; and the College Data Protection Officer (DPO). For info the DPO is an externally provided service.

Upon notification of a breach or potential breach, this group and any other relevant staff will assess the breach and whether or not it is notifiable to the Information Commissioners Office (ICO) and the subjects of a breach.

There were 9 reported data incidents in 2023/24 up from 8 in 2022/23. As with previous years, the largest proportion of these related to email addressing errors. Appendix 2 provides further detail on each incident.

Comparator data with other College in the sector is not available.

4.2.2 Subject Access Requests

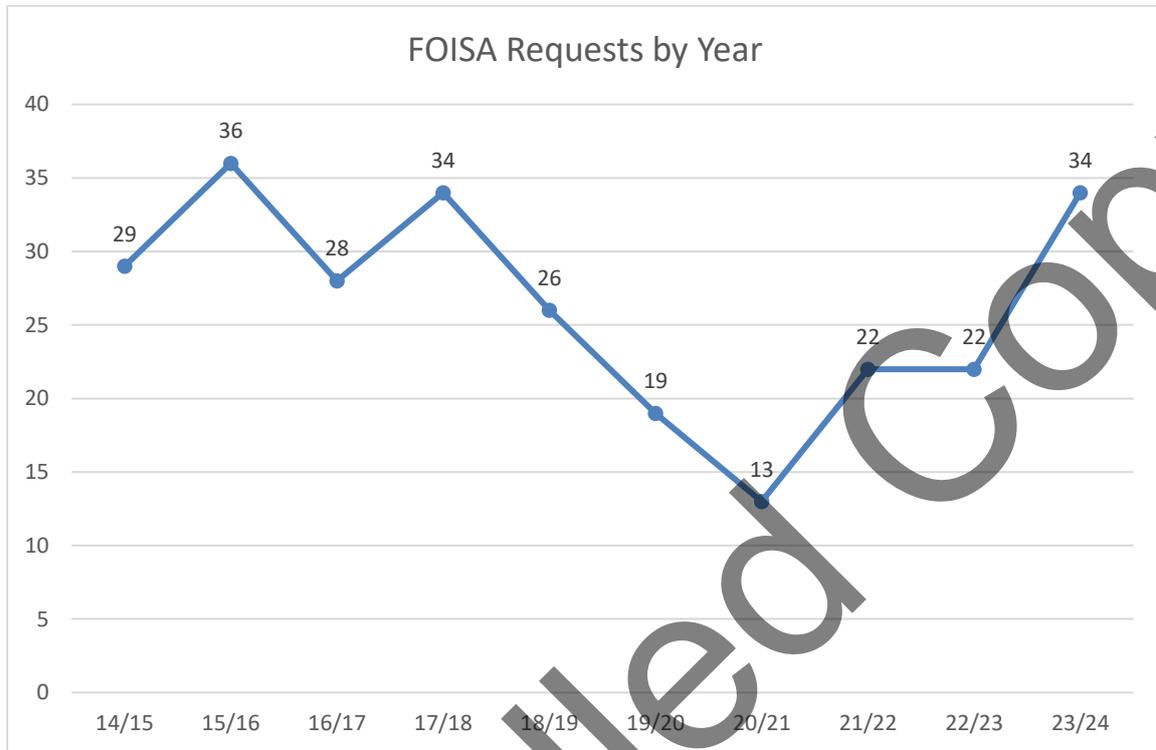

There was one subject access request from an individual during the year and one request under the right to be forgotten aspect of the legislation.

Both these requests were actioned within the required timescales.

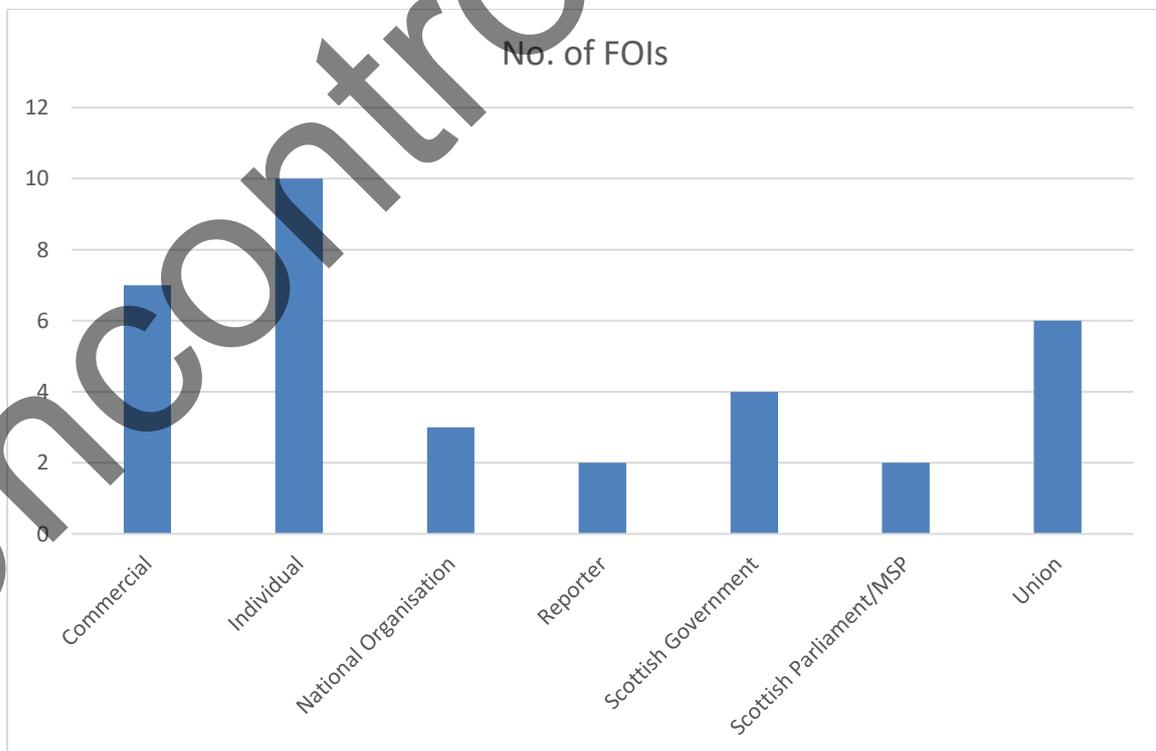

4.3 Freedom of Information (Scotland) Act 2002 (FOI) Requests

There has been an increase in FOI's requested compared to the previous years and the number of requests has not been this high since 2017/18.

The chart on the next page shows number of requests from this year compared to previous years.

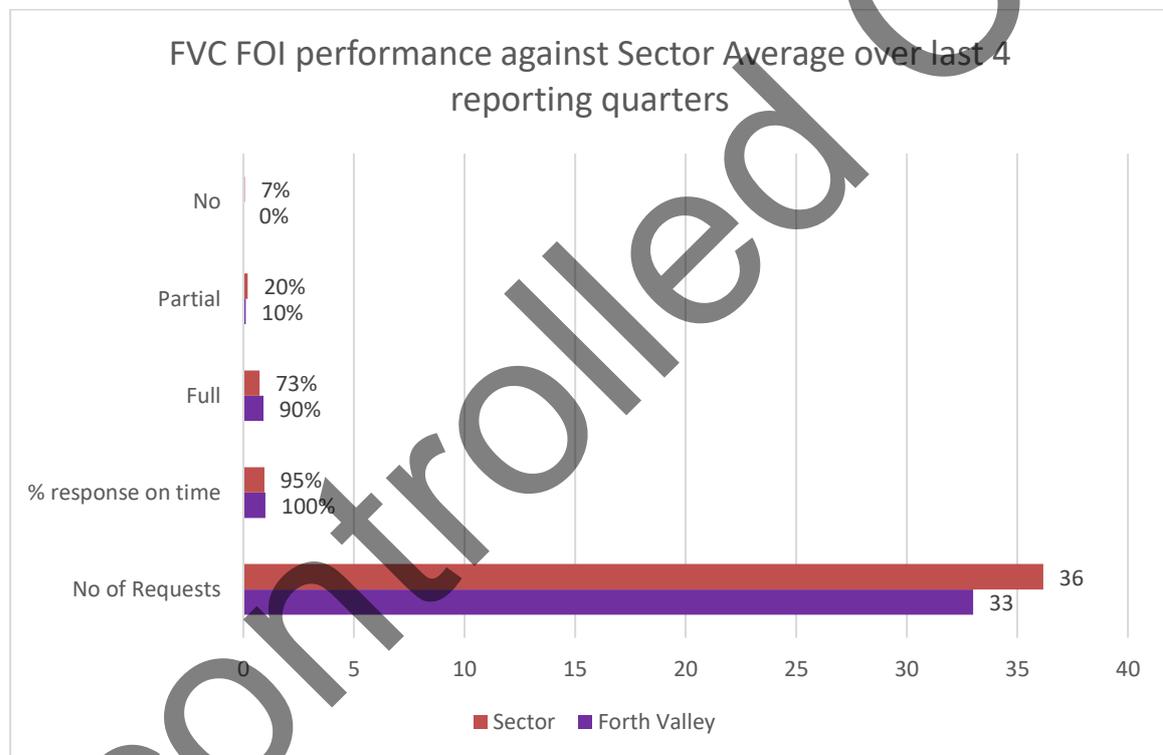

In terms of sources of requests, this remains mixed as per previous years.

When comparing the College FOI activity to the sector average (as per the table below) we can see that the number of FOIs is roughly in line with the sector indicating there has not been any particular FOI focus on the College. The figures differ slightly from those reported above owing to slightly different reporting periods.

Sector wide, 95% of requests have received a response within the relevant timescale whereas the College responded to 100% within timescale. The College also is slightly ahead of the sector in terms of the number of full disclosures where all information requested was provided and, unlike 7% of sector average responses, the College did not have a FOI where no information was provided.

In relation to the type of requests, there was a wide disparity in requests ranging from fly tipping to violence against staff/students and from IT information to Care experienced students. Further information is contained in Appendix 3.

The closest we can identify to any trends is that a number of requests follow wider national news reports such as queries regarding RAAC in buildings or discipline and behavioural levels.

5. Resource Implications (Financial, People, Estates and Communications)

As noted earlier, meeting our differing requirements under the three areas reported on can have a significant impact on staff time and planning, especially where complaints are concerned.

6. Equalities

There are no impacts associated with this paper. Equalities issues that may be identified will always be addressed at the time.

7. Communities and Partners

None

8. Risk and Impact

Please complete the risk table below. Risk is scored against Likelihood x Impact, with each category scored from Very Low through to Very High. Risks should be robustly scored and, if the combined score (Likelihood x Impact) is higher than the Board Risk appetite for the risk category identified, additional justification must be provided on why this risk is necessary.

If the paper is an approval, please reflect on whether the approval will have any direct or indirect impact for any other areas of operational activity internally or externally within the College – No

	Likelihood	Impact
Very High (5)		
High (4)		
Medium (3)		X
Low (2)	X	
Very Low (1)		

Total Risk Score – 6

The College has a Strategic Risk appetite for categories of risk as defined by the Board of Management. Decisions being taken at LMT/SMT/Board level must have cognisance of this. Please indicate the single most relevant risk category in the table below.

Failure to meet our regulatory requirements in relation to complaints, Data Protection or FOI can open the College up to reputational and legal consequences.

The College mitigates these risks by actively management of the processes by the Executive Office with oversight and sign off on all matters from the Principal or relevant SMT member.

7	Email	Funding form sent to a student was meant to be a blank but a previously completed form was used in error, containing another students data	Data was recovered or confirmed deleted by recipients. Monitoring in place for impact but none has appeared	No	Review of procedures put in place to mitigate against another incident	Need for managers to take ownership of exemplar forms to prevent reoccurrence of error
8	Data Accuracy	The incorrect address for a student was entered by staff into the SQA online system leading to course certificate sent to wrong address	Minimal personal data (name). Main impact was inconvenience as student had to wait on new certificate being issued	No	Staff counselled on data accuracy	As per action taken
9	Email	Email sent to an external account in error. The error was not noticed for a period of time. When contacted, the external company confirmed the email had not been opened and deletion was confirmed. Staff have working relationship with the company in question and are confident that deletion will have taken place	If the email had been opened it did contain sensitive personal data so while low impact, it could have been higher	No	As per ID 1 action	As per action taken
